1. Praise God for re - birth, The new life of spring;
2. Thank God for re - birth, Sal - va - tion's new life
3. Praise God for re - birth, Of spi - rit and will

For green - ing of earth Let prais - es now ring.
Con - ceived on the earth Through Je - sus' own strife.
To dwell in man's dearth Of peace and good - will.

As win - ter's long night Is swal - lowed by day,
As sin's cold, dark night Is changed in - to day,
Give thanks for new hope - All fear to al - lay -

Give thanks for new light - The warm so - lar ray.
Give thanks for new sight To walk in God's way.
And add to life's scope God's bright, end - less day.
