By be - ing right and fac - ing strife, And vowed by God for worth - while life,
To nul - li - fy the sin in - stilled In - to him - self that man has willed;

As - sur - ing grace, the prom - ised gift That when time's sands up - heave and shift
As - sur - ing grace in time and place Both now and when be - yond this space,

His child will not know help - less - ness, God vows with cer - tain stead - fast - ness.
God vows to see each life and death, And stays as near as life and breath.
